**Aquarion Water Company Announces
Water Main Installation Project in Westport & Weston**
Newtown Turnpike Main Installation Scheduled to Begin June 19th

BRIDGEPORT, CONN. – June 15, 2017 – Aquarion Water Company today announced a water main installation project beginning at the intersection of Route 33 and Newtown Turnpike in Westport. The installation will progress easterly along Newtown Turnpike to Crooked Mile Road and then run a short distance along Cavalry Road. It will then turn onto West Branch Road and proceed to the Westport/Weston town line.

Scheduled to begin June 19, 2017, the work is expected to be completed by the end of 2017. Final road paving will occur in 2018. The project will install more than 9,000 feet of new 12” water main and will greatly improve water distribution capacity.

During the project, customers in the area may experience temporary service disruptions or discolored water. Aquarion recommends customers store water in their refrigerators for drinking and cooking, in case these circumstances arise. Customers also should refrain from washing laundry if water is discolored. Prior to resuming use, customers should run their cold water faucets until the water appears clear.

“We greatly appreciate residents’ patience during this project,” said Alan Huth, Aquarion’s Manager of Utility Programs. “We will work closely with our customers, contractors, and town officials to coordinate the work and minimize disruption.”

Due to construction, customers should expect minor traffic delays and possible detours during the working hours of 7:30 a.m. to 4:00 p.m. John J. Brennan Construction, based in Shelton, CT, was chosen as the contractor for this main installation project.

Customers with project-related questions may contact Alan Huth, Aquarion’s Manager of Utility Programs, at (203) 362-3070. For service or water-related issues, please contact Aquarion Customer Service at 1-800-732-9678.

About Aquarion Water Company:

Aquarion Water Company is the public water supply company for more than 625,000 people in 51 cities and towns throughout Connecticut, as well as serving customers in Massachusetts and New Hampshire.
