Aquarion Water Company Announces Water Main Project in Ridgefield

Mountain Road project scheduled to begin November 16th

BRIDGEPORT, Conn. – November 09, 2015 – Aquarion Water Company today announced a water main interconnection project in the town of Ridgefield on Mountain Road from 94 Mountain Road to 229 Mountain Road. The work is scheduled to begin November 16, 2015 and expected to be completed by mid-December.

The project will install a total of 1,560 feet of 4-inch water main, connecting Aquarion's Ridgefield Lakes #4 System to its Ridgefield Main System. Customers who are currently connected to the Ridgefield Lakes #4 System will benefit from improved reliability and more consistent water pressure, as their service becomes part of Aquarion's Ridgefield Main System.

During the project, drivers may experience traffic delays and detours due to construction. "We greatly appreciate residents' patience during this project," said Alan Huth, Aquarion's Manager of Utility Programs. "We will work closely with our customers, contractors, and town officials to coordinate the work and minimize traffic delays."

People that live within the project area or in front of any of the recently completed water main extensions in Ridgefield, may be able to connect to Aquarion water service. Interested residents can contact, Dave Sandor, Aquarion's New Services Coordinator, at (203) 337-5907 for additional information. Customers with project-related questions may contact Steve Glowa, Aquarion's Pipeline Program Coordinator, at (203) 362-3061.

About Aquarion Water Company:

Aquarion Water Company is the public water supply company for more than 625,000 people in 51 cities and towns throughout Connecticut, as well as serving customers in Massachusetts and New Hampshire. It is the largest investor-owned water utility in New England and among the seven largest in the U.S. Based in Bridgeport, Conn., it has been in the public water supply business since 1857. Across its operations, Aquarion strives to act as a responsible steward of the environment and to assist the communities it serves in promoting sustainable practices.
