**Aquarion Water Company Announces  
Water Main Installation Project in Westport**  
*Post Road East Project Scheduled to Begin April 2, 2018*

BRIDGEPORT, CONN. – March 22, 2018 – Aquarion Water Company today announced a water main installation project beginning at the intersection of Main Street and Myrtle Avenue in Westport. The installation will progress southerly along Myrtle Avenue to the Post Road.

Scheduled to begin April 2, 2018, the work is expected to be completed by the end of July 2018. The project will install approximately 2,000 feet of new 16 inch water main and will greatly improve water distribution capacity.

During the project, customers in the area may experience temporary service disruptions or discolored water. Customers should refrain from washing laundry if water is discolored. Prior to resuming use, customers should run their cold water faucets until the water appears clear.

“We greatly appreciate residents’ patience during this project,” said Kevin Lott, Aquarion’s Manager of Utility Programs. “We will work closely with our customers, contractors, and town officials to coordinate the work and minimize disruption.”

Work along Myrtle Avenue will take place during the hours of 7 am to 7 pm and will require rolling road closures. Residents can find the latest construction information at [www.aquarionwater.com](http://www.aquarionwater.com) under the “Alerts and Outages” section on the homepage. True Blue Construction of Wallingford, CT was chosen as the contractor for this water main installation project.

Customers with project-related questions may contact Kevin Lott, Aquarion’s Manager of Utility Programs, at (203) 337-5906. For service or water-related issues, please contact Aquarion’s Customer Service Center at 1-800-732-9678.
