**Aquarion Water Company Announces
Water Main Replacement Projects in Stonington**
Broadway Avenue Main Replacement Scheduled to Begin the Week of April 1st

BRIDGEPORT, CONN. – March 26, 2013 – Aquarion Water Company announces the commencement of water main replacements on Broadway Avenue from East Main Street to Willow Street, Bay Street from Isham Street to Holmes Street, Holmes Street from Greenmanville Avenue to Bay Street, Washington Street from Broadway Avenue to Denison Avenue, and School Street from Denison Avenue to Borodell Avenue.

These projects will replace a total of 4,210 feet of over 110 year-old, 4 and 6-inch cast iron water mains with 8-inch ductile iron mains, and will greatly increase fire flows in the areas. Work on Broadway Avenue is expected to begin the week of April 1, 2013, followed by the Holmes Street and Bay Street projects during the week of April 8, 2013. Tentative start dates for the School Street and Washington Street project will be communicated as work progresses. Work is expected to be completed within three months.

During the projects, customers in the area may experience temporary service disruptions or discolored water. Aquarion recommends customers store water in their refrigerators for drinking and cooking in case these circumstances arise. Customers also should refrain from washing laundry if water is discolored. Prior to resuming use, customers should run their cold water faucets until the water appears clear. Due to construction, minor traffic issues may also arise.

“We greatly appreciate residents’ patience during this project,” said Judy Simpanen, Aquarion’s Operations Manager for the Stonington/Groton area. “We will work closely with our customers, contractors and local officials to coordinate the work and minimize disruption.”

Customers with project-related questions may contact Steve Glowa, Aquarion’s Pipeline Program Coordinator, at (203) 362-3061. For service or water-related issues, contact Aquarion Customer Service at 1-800-732-9678.

About Aquarion Water Company:

Aquarion Water Company is the public water supply company for more than 625,000 people in 47 cities and towns throughout Connecticut, as well as serving customers in Massachusetts and New Hampshire.
