Aquarion Improving Water Mains in Mystic

Water main cleaning scheduled to take place in Mystic between March 24 – April 28

BRIDGEPORT, CONN. – March 22, 2019 – Aquarion Water Company today announced a water main cleaning project in Mystic from Sunday, March 24 to Sunday, April 28. The water main cleaning project is being undertaken to ensure that customers continue to receive the highest quality water.

The Mystic water main cleaning project is estimated to last approximately one month. During that time, customers may notice drops in water pressure and some discoloration in their water. This discoloration results from the temporary disturbance of the water flow, which stirs up naturally occurring minerals that settle in water mains. Aquarion recommends customers store tap water in their refrigerators for drinking and cooking. Customers should also refrain from washing laundry if water is discolored. Before resuming use, customers should run their cold-water faucets until the water appears clear.

The streets that will be affected during the first week of the water main cleaning project are listed below. The schedule for the project is also available on the company's water main cleaning hotline at 1-800-203-7000 and under alert listings at www.aquarionwater.com.

First week's cleaning schedule:

Sunday Evening, March 24 (9:00 pm to 5:00 am)
